

CLINICAL RESPECT

Clinical Respect is our health provider promise to deliver excellence in patient care while helping achieve best value in prescribing. Central to our principles, Fittleworth is an independent, trusted and dedicated home dispensary for ostomy, urology, continence and wound care products that caters for the individual and varied needs of patients at a local level.

Driving Value for Money

At the heart of what we do is maintaining excellence in patient care while helping you achieve value for money in prescribing. Central to this is ProVIS - your free patient management tool that provides complete visibility to your patients' dispensing data.

Operating at a Local Level

Fittleworth has over 30 Care Centres nationwide providing a local, personal service. Having multiple independent care centres ensures excellent stock availability, across all major manufacturers, so you and your patients can rely on us to provide the products they are prescribed.

Excellence in Patient Care

Our home dispensary service is constructed around the needs of the patient - from initial prescription to final delivery. Our experienced in-house specialist nurses are able to offer support and advice to patients and healthcare professionals and we ensure all regulatory requirements are adhered to.

Acting with Independence

Fittleworth is simply a home delivery service, which is independent of a manufacturer. Our independence means we do not amend, substitute or add anything to a patient's prescription unless prior approval has been received from the health provider responsible.

Delivering our Prescriber Promise

Working closely with clinicians, Fittleworth promises always to comply with prescriber instructions and never load prescriptions with additional accessories or appliances that are not directly prescribed by you.

Compliance with Regulations

Fittleworth complies with all relevant NHS and industry regulations, so you can be sure that you are dealing with a reliable dispensing appliance contractor (DAC).
